- 4. Operations Health
- 5. Handover Checklist

SECTION 1 - Role Purpose

This guide is for Admin and Super Admin. It explains only the daily work this role normally needs to perform in OMMS.

Important Note: Use the master manual for full details

This short guide is for fast training. For complete system understanding, read the Master OMMS Training Manual.

Admin users manage the system foundation: users, company setup, permissions, health checks, alerts, and operational controls.

SECTION 2 - Setup and Users

- Create users with correct roles.
- Disable users who leave the company.
- Keep company, bank, tax, and invoice setup updated.
- Review notification preferences and alert thresholds.

SECTION 3 - Security

- Do not share admin credentials.
- Review audit timeline for sensitive actions.
- Keep public links token based.
- Use least-permission access.

SECTION 4 - Operations Health

- Check diagnostics page.
- Review recent slow requests.
- Check notification retry health.
- Confirm background jobs if enabled.
- Review critical alerts.

SECTION 5 - Handover Checklist

- Users and roles checked.
- Company setup checked.
- Billing setup checked.
- Alert thresholds checked.
- Testing checklist shared with new admin.
